

Temporary Service Assembly Rental Agreement

SESD, agrees to furnish (if requested) and install for the undersigned, called Customer, a temporary electric service at

Service Address: _____
in accordance with the provisions of SESD's temporary service policy.

The customer agrees to pay SESD **\$100.00 as a non-refundable** connect and disconnect charge. The Customer further agrees if renting our temporary power box to pay a monthly rental charge of **\$25.00 for each month** or part of a month that a service loop assembly is in possession of the Customer. The monthly rental will be in addition to the charges for electric energy used. When notified by Customer or Contractor that the temporary service is no longer wanted, SESD will remove the assembly and return it to stock. Pre-assembled meter loops will be stocked in limited quantities and available on a first request basis.

Customer further agrees to use and SESD agrees to supply electric energy to the amount of 9 KW at 120/140 volts, single phase under the SESD Schedule of Residential, General Service or Irrigation Pump rates beginning with commencement of service.

In as much SESD's temporary service loop assembly is being installed expressly for the use of the Customer, Customer agrees to exercise reasonable diligence to protect SESD's equipment from damage or loss and agrees to reimburse SESD for damage or loss other than normal wear caused during the period the equipment is rented.

In acceptance of this agreement, Customer agrees to receive the service, to pay therefore at SESD's office in Payson, Utah, at the rate set out above and to conform to and abide by SESD's rules and regulations, governing the class of service.

In the event that the Customer fails to live up to the terms of this agreement the Customer shall pay reasonable attorney fees and costs of court for enforcement thereof.
